A Fact and a Theory.

In considering what he shall do in life and whether he shall do anything, it is comparatively seldom that a man considers properly how the question should be influenced by his relations to his friends. He usually takes into the account the material calls they are entitled to make upon him, and he not infrequently gives some thought to their hopes, ambitions, and wishes in his behalf. With the subtle question of how they will be affected by the development of his character, there is not one man in a thousand who concerns himself for a moment.

If friendship and kinship have any claims, however, or indeed if our relations to our fellows should ever be considered, it is certainly not only reasonable but imperative that in deciding upon a course of life, a man should reflect upon the changes likely to result to himself from any given choice, and that his relation to others be daily. If he decides that he will pursue a course of business or of professional life, he is naturally justified in looking first and chiefly to the effects upon his own character, to the results he can expect, the good he can do, and those phases of the question which must directly and manifestly bear upon his attachment to his individual affairs. If he is sincere in his attachment to his friends he will also wish to consider how his course will affect their character, their aims and their work. This may sound a little transcendental; but who of us is there who has not at some time felt secretly aggrieved by a friend's choice of direction in life; and such an irritation could have no logical foundation except a tacit assent to the very principle just laid down. If our friend was not bound to take into consideration the effects of his decision upon us, we should certainly have no right to complain whatever that decision might be.

If a man may choose to go into a line of life which will narrow his sympathies, emphasize his faults, and stint the growth of his virtues, he has not only committed the moral wrong which is patent in such a course, but he has robbed his friends of that share in his life to which they have a just claim. He has betrayed friendship not by the acts of his life, but by what he becomes. What we speak of as the inevitable separations of circumstances are more often separations of character; and however inevitable they may be they could often be avoided by a little forethought and will. Men cannot too often or too strongly impress upon their minds the fact that they do not stand alone; that universal brotherhood is not an ideal theory to be accepted or not as one chooses, but a practical, every-day fact, of which this matter of affecting the lives of our friends by our decisions is but one of an indefinite number of manifestations. —Boston Courier.

IS HE A DEFAULTER?

An Ohio County Treasurer Who is Thought to Have Skipped With \$81,000 of the County's Funds.

Wapakoneta, O., Aug. 31.—There is great excitement in this place over the absence of Isaiah Lucas, the county treasurer. Lucas left town last Saturday night with his wife, saying that he was going to Toledo. His nephew and deputy, was left in charge of the treasury. He failed to return, and the matter was reported to the county commissioners. They at once counted the funds of the treasurer and discovered \$81,000 missing. A meeting of the commissioners is called for to-morrow, when a thorough investigation will be made. Lucas' friends insist that he will return all right, and they believe the missing money has been deposited some where else.

ANOTHER BIG THEFT.

Saco, Me., Aug. 31.—Saco and Biddeford's saving institution has seriously suffered financially through a young clerk, who absconded. Frank C. McNeilly, nineteen years old, has mysteriously disappeared, taking \$15,000 with him in cash, besides United States bonds amounting to over \$185,000 and railroad municipal bonds. McNeilly was considered one of the most trustworthy young men in the city. The \$185,000 in United States bonds are registered and cannot possibly be used by the thief. The treasurer says the bank is sound and depositors need feel no alarm.

TRAIN WRECKERS.

A Gang of Them Seem to be Haunting the Wabash Railway Company.

At a late hour last night officers at Wabash, Indiana, arrested five men, who were camping out in the vicinity of the Wabash railway bridge, on the western border of the town. From the conversation of the gang, overheard by the officers before the arrest was made, the officers believe that an important capture has been made. It is probable that the gang is wanted in Illinois to answer for the recent attempts made at train wrecking, and also the attempt to wreck a Wabash train at Danville, as stated below.

Later particulars of the attempted wrecking of a passenger train on the Wabash at Danville last Wednesday show it to have been one of the most dastardly ever contemplated, and if it had been successfully carried out the result would have been more frightful than the Chatsworth disaster. The bridge crossing the Vermillion river is 600 feet long and over 100 feet high, and the approach from the west is down a heavy grade through a deep cut. The watchman employed to examine the bridge and throw the targets after each train has passed over, in attending to his duty, Wednesday morning, just before the east-bound fast passenger train was due, discovered a piece of railroad iron firmly placed between two ties in such a manner as would have wrecked the first train passing over. It would have been a ghastly wreck, throwing the train, filled with passengers, down the embankment into the river 100 feet below. After he had removed the obstruction he heard a pistol shot fired below the bridge, which is supposed to have been a signal. Two suspicious looking men had been seen around the bridge during the night, but no trace of them could afterwards be found.

CHAPLAIN McCABE.

His Eloquent Address Before the Missionary Convention in this City.

The missionary convention of the Methodist Episcopal churches of this district, which began on Monday evening at the Berry street church, was continued last evening at the Wayne street church. The meeting was well attended and was addressed by Chaplain C. C. McCabe, of New York, the secretary of the National Board of Missions. His address was a masterly one, and the chaplain certainly possesses the faculty of interesting an audience, for he kept his hearers frequently convulsed with laughter, and held them interested until the close. He made a sly dig at the newspaper editors, complimented the Germans, and paid a glowing tribute to the Methodist clergy by saying that if a conference of them were turned loose on Utah that they could wipe out Mormonism in a very short time.

His address was replete with fine thought and humor, and the chaplain knows how to talk the mission cause, for he succeeded at the close of the meeting in raising a nice sum for the foreign work. The convention is being attended by a number of ministers from different parts of the district, and several of them took part in the exercises last evening. The convention has been in session to-day and it continues to-night at the Berry Street M. E. church, on which occasion Chaplain McCabe will again address the audience. He is one of the best pulpit orators that has ever appeared in the city, and Berry Street M. E. church will be crowded to-night to listen to the wonderful eloquence and the grand singing of this remarkable man.

A Brutal Husband.

Owensboro, Ky., Aug. 31.—Benjamin Neal, a farmer in good circumstances, who lives ten miles from Owensboro, yesterday beat his wife to insensibility

with an axe because she persisted in going to visit her father in another county. He desisted only when the woman's sister appeared. Thinking he had killed his wife, he fled. Mrs. Neal recovered consciousness after two hours, but is badly injured.

AROUND THE CITY.

The News of the Day as Gathered from the Railroad and Manufacturing Centers of the City.

Wm. Seybold, of the Organ Factory, has recovered from his recent illness.

Foreman Joe Slater, of the Bass blacksmith shop, has a new clerk.

Some of the departments of the Bass works are now working thirteen hours a day.

H. C. Chapin, the well known engineer on the Nickel Plate, is on the sick list.

Theodore Weichman, of the Bass machine shop, who was reported sick, is now at his post of duty.

Mrs. Chas. Benoy, the wife of the machinist in the Bass works, has recovered from her recent illness.

Joseph Jordan, the employe in the Bass foundry, was married a week ago and has gone to house keeping.

Arthur Mills, the finisher in the Olds Wheel works, who has been on the sick list for some time, has returned to work again.

The laying of the double street car track is progressing rapidly and it will not be long before the line will be entirely completed.

The large number of excursions and the increased travel among the resort tourists this summer has added greatly to the earnings of all the railroads.

The Nickel Plate, officials consisting of President C. W. Caldwell, General Manager Williams, Superintendent of Motive Power John MacKenzie, went to Chicago yesterday.

Mrs. J. B. Brown, the wife of the casting inspector of the Pittsburg shops, who has been sick for several days, is improving rapidly, and is now able to be around the house.

Victor A. Sallot, the superintendent of the N. G. Olds & Son's works, is a pleasant gentleman and a valuable man to the company in whose employ he is.

Chas. W. Cross, the popular foreman of the Pittsburg shops, has the thanks of our reporter for many courtesies. He is a pleasant gentleman, and reports work as booming in every department of the company's shops in this city.

The shop clerks of the Pittsburg works have been busily engaged in fixing up their monthly reports and had a round been made among their offices last night at midnight they would all have been found busy. They sent in their reports this morning.

The employes in the different departments of the Pittsburg shops, are now working thirteen hours a day, and still the company is unable to dispose of the accumulated work that is pressing in upon them. There are several locomotive engines in the process of erection now, and forty more upon the books that will have to be built.

Seven coaches of emigrants passed through the city early this morning on the Pittsburg for Chicago, and about seventy of them got off here to take the Grand Rapids road for northern Michigan. They took possession of the waiting room at the depot, but did not break fast at the dining hall. They were kept waiting here about four hours.

Two of the locomotives which were in the wreck that occurred near Lima, on the Pittsburg road night before last, have been brought to the shops here for repairs and are now standing in the company's yard. They are both terribly wrecked, and one of them is so badly shattered that it is doubtful if the company will be able to do anything with it.

The Cincinnati, Indianapolis, Chicago and St. Louis railroad announces that it will sell thousand-mile tickets at the uniform rate of \$20 to any and all applicants. Only one name will be inserted in the ticket, and it is good only for the person in whose name it is issued. Ticket expires one year from date of issue.

The force of men in the railroad freight houses are kept busy handling the immense amount of freight that is received into and shipped out of the city. If anyone entertains the idea that Fort Wayne is not a great business center, he should visit our railroads and see the piles of freight that is constantly stacked up there, notwithstanding the fact that but little of it remains over twenty-four hours.

Among the patrons of the Northwest dining car, Delmonico, is a large, fat, Gordon setter dog at Carroll, Ia. He comes to the car and barks lustily and frisks about until Conductor Pierce comes out with a big tin bucket full of meat and feeds him until he is full to the bursting point. Mr. Pierce says the dog is there, no matter how stormy it is or how late the train may be. He has never missed a day for three years.

Foul Play Suspected.

FELICITY, O., Aug. 31.—Mrs. Margaret McIntyre, of Chillicothe, Ohio, died suddenly last week, being taken violently ill at breakfast immediately after drinking coffee. She made known no suspicious of foul play before her death, but the post mortem examination gave strong evidences of poisoning, and arrests are looked for, as soon as the proof is in proper form.

TROUBLE FEARED.

The Excitement That is Raging in Virginia Over Two Little Criminal Cases.

PETERSBURG, Va., Aug. 31.—Last week a negro was fined \$50 and sent to jail for striking a white woman. Friday Dr. Hinton, a prominent physician, struck a colored girl. He was arrested and the case was continued until to day. The negroes demanded that the doctor receive the same punishment as that inflicted on the negro. A violent card, signed by prominent negroes, was published in the *Index Appeal* yesterday, and the signers and the editor were arrested for libel. The excitement became so intense that the mayor has ordered three companies of militia to hold themselves in readiness for any emergency that may happen.

Col. J. H. Simonson will continue Mr. Frank E. Stouder as treasurer of the Temple opera house, during the coming season. Mr. Stouder is always agreeable and courteous and comes as near pleasing every patron of the temple as it is possible for a man to do. The *San Francisco* desires to commend him and congratulate Manager Simonson on his retention.

FOREIGN NEWS.

PARIS, Aug. 31.—Prince Napoleon and Prince Victor have written to ex-Emperor Eugene asking to be excused from attending the transfer of the remains of Napoleon III and Prince Imperial from Chislehurst to Farnborough on the ground that it would be impolitic for the father and son to meet each other.

The President to Stop at Terre Haute. WASHINGTON, D. C., Aug. 31.—Col. Wm. E. McLean, in an interview with the president to-day, conveyed the invitation of Terre Haute for Mr. Cleveland to visit that city. The president agreed to stop there an hour.

Graveyard Insurance.

INDIANAPOLIS, Aug. 31.—The graveyard insurance companies, which were driven out of Michigan by a law passed last winter, have found secure lodgment in this state and have already begun to make trouble. The auditor of state is in daily receipt of letters concerning

their methods. They have filed the necessary articles of incorporation and made the statements required under the laws. The report of the American Mutual of Elkhart, shows that 607 persons have been insured and more than one-half of these are over seventy years old. Thirty-eight persons thus insured are eighty-four years old or over that age. The further report shows that a large number of policies have matured, but on none of them was the full amount paid.

MORE SUCCESS.

The Natural Gas Project Receiving Substantial Subscriptions.

At the Business Men's Exchange last night, Hon. J. B. White presided at a spirited meeting. The project to pipe natural gas to Fort Wayne received every token of good will and a committee, consisting of Hon. J. B. White, J. C. Peters, L. Freiburger, P. A. Randall, B. W. Skelton, M. V. B. Spencer, J. F. Wm. Meyers, and others, were named to solicit further subscriptions to the People's company.

Up to 2 o'clock this afternoon their labors were rewarded by the following list in addition to the names secured Monday night:

J. J. Kern	100
F. D. Casanova	100
E. J. Pennington	100
J. A. Walter	10
W. D. Page	100
M. A. Noll	50
F. J. Noll	50
S. B. Boyd	1,000
W. E. Davis	50
C. E. Bond	10
J. W. Woodworth	50
W. F. Reitze	100
Stephen Morris	30
G. G. Detzer	50
J. D. Bond	250
W. A. Diffenderfer	50
J. M. Ooombs	500
Frank Welling	100
John George Strodel	100
Max G. Lade	100
Paul Koehler	100
R. W. Blair	20
Robert H. H. H.	10
C. H. Currier	30
A. W. Stace	10

It will be seen from the above list that all the officers and employes of the Old National bank, from the president down to the most humble has subscribed. This is the way for the people to take hold of this matter, and then the committee will have little difficulty in raising the necessary amount to guarantee success.

It is the determination of those having the matter in charge, that not one cent of the money subscribed will be called for unless \$400,000 is raised.

A further meeting in the interest of the gas project will be held at the Exchange rooms to-morrow night.

THE MARKETS.

NEW YORK, Aug. 31.—The stock market was very active and somewhat irregular at the opening, although differences were for insignificant fractions only. Some slight losses were recorded in the early dealings, but a decidedly strong tone was soon developed, and, on very large business quotations, were rapidly marked up over the entire list. At 11 o'clock the market was quiet and steady to firm, at or near the best figures reached.

Noon—Money, easy at 4 1/2 per cent. New York, Aug. 31.—Wheat, 1 1/2 to 1 3/4 higher, firm and more active. No. 2 red, Aug. 79 1/2. Corn, 1 1/2 to 1 3/4 lower. Oats, shade easier, fairly active at 32 1/2 to 40. Chicago, Aug. 31.—Wheat, about steady at 68. Corn easy at 40 1/2. Oats easy at 24 1/2. Rye at 44 1/2.

A Big Gas Well.

TOLEDO, Aug. 31.—An oil well was shot near Cuyahoga yesterday, and in three hours it filled a 900 barrel tank. It is the largest ever struck in Ohio.

An Untenable Defense.

Police Judge (severely).—Prisoner at the bar, you are charged with wanton and unprovoked assault on this district messenger boy, who appears here as complaining witness. What have you to say in your own behalf?

Prisoner (volubly).—You see, your honor, I was coming down the street when this boy dashed out of the bank and dashed against me.

Judge (doubtfully).—You say he ran out of the bank?

Prisoner (confidently).—Yes, your honor. He ran out, as I said, and

Judge (contemptuously).—You dare to come here and tell this court that a messenger boy ran! I'll have you to understand, sir, that this court cannot be trifled with. Fifty dollars or fifty days in jail.—*San Francisco Post.*

A Considerate Son.

The children are getting more precocious every day. On returning home from his office Col. Yerger found his ten-year-old boy Tommy in the front yard playing marbles with a strange boy of about his own age.

"Bill," said Tommy, "allow me to introduce you to my father. You two gentlemen ought to know each other."

Texas Siftings.

The desire of fame betrays an ambitious man into indecencies that lessen his reputation; he is still afraid lest any of his actions should be thrown away in private.—*Addison.*

VERY FOOLISH!

Trouble is Feared at the St. Louis Encampment if the President's Picture is Hung in the Streets.

St. Louis, Aug. 31.—The trouble breaking out here over the recent Cleveland picture excitement at Wheeling and Richmond, renders it probable that these scenes will be reenacted here during the national encampment of the Grand Army of the Republic. A great many democrats have expressed their intention to hang the president's picture over the streets in front of their building, and doubtless the G. A. R. procession will be given an opportunity to go under or around it. The street corner discussions over the matter are frequent and warm, and two of the democratic papers of the city are having a dispute over it.

One takes the ground that the army was invited here by the city, and that the soldiers should be treated as their guests, and nothing done by our citizens to cause them to regret their visit, and expresses the hope that no Cleveland pictures will be hung to the breeze.

The other claims that the Grand Army invited itself here; that it has treated the city shamefully in the Cleveland invitation trouble, and that in asking our citizens to haul down their Cleveland banners upon the arrival of the veterans, is asking what cannot and should not be granted.

JOHN H. BASS.

The Extensive St. Louis Car Wheel Works of Mr. J. H. Bass, of this City, Destroyed by Fire.

This morning Mr. J. H. Bass, the president of the Bass foundry and machine works, of this city, received the following dispatch which explains itself:

St. Louis, Aug. 31, 1887.

J. H. Bass. The entire works, including the offices, of the St. Louis car wheel works company, except the new yoke foundry, were destroyed by fire a little after midnight this morning. The fire originated in the coke ovens, and the shortage of water prevented the saving of the building. The safe and contents with the books and policies are in the ruins.

The St. Louis car wheel works is a large establishment, and employs several hundred men. It is owned and operated by Mr. Bass, and he will leave for St. Louis this evening to look after the loss. He estimates his loss at over \$100,000, but the building and contents are covered with insurance.

ONE MORE.

Mrs. Julia A. Slagle Sees Julius Remus for \$5,000.

This morning Mrs. Julia A. Slagle through her attorney, Mr. A. H. Bittenberger, sued Julius Remus to recover \$5,000, because of the killing of her seventeen-year-old son in a gravel pit the other day. The complaint says that the boy was placed at work by Mr. Remus in what is known as the Pittsburgh and Fort Wayne railroad gravel pit. There was no protection from the high, menacing gravel banks, and the earth slid on her son, crushing and smothering him to death.

She says the boy was her only support and source of livelihood and his death damaged her to the extent of \$5,000.

HELD UP!

One Armstrong Claims to Have Been Waylaid and Robbed of \$250.

Mr. Armstrong, who resides at Spencer, this county, stepped into the sheriff's office at 9 o'clock, this morning, and complained that at that hour last night, he was waylaid at the St. Mary's river bridge, near the Edmond mill, and robbed of \$250.

The fellow seemed truthful, and had the marks of his encounter. He gave Sheriff Viberg an idea of his assailants and that officer is now on their trail.

Daily Sentinel

WEDNESDAY, AUGUST 31, 1887.

THE colored people who went to Kansas some years since to grow up with the country, according to statements, have achieved success. At a recent convention of colored people held at Hutchinson, Kansas, it was stated by the Committee on Industrial Progress that the colored people of Southwestern Kansas, now own 767,000 acres of land, valued at \$1,225,000, and city and town property valued at the additional sum of \$965,000.

Down in Georgia they have concluded that the world will come to an end in 1977. Their reason for thinking so is that a hen has laid an egg upon the shell of which is plainly "inscribed" the outline of a heart, an acorn, and the number 77. In Cuba, Mo., a hen has laid an egg having on one side the face of a clock with distinct Roman numerals. It would seem that the hens are likely to start a kindergarten after they become a little more proficient in object teaching.

The late William White, of Waldo-borough, Me., who died recently at 94, was a descendant of Peregrine White, the first white child born in New England. A sister, aged 98, survives him. "He not only attained a great age," says the *Leiston Journal*, "but, like other very old people in the State, retained his vigor and skill. He worked at the edge-tool trade until nearly 90 years old, and on his ninetieth birthday he 'new-laid' an ax, another veteran wielding the sledge. He was a strong temperance man from the days of the great Washingtonian movement.

In 1885 John Hay was sentenced by an English court to seven years' penal servitude for larceny. He was afterwards pardoned. He brought action against the Great Eastern Railway Company for malicious prosecution, but was non-suited on the ground that, as a convicted felon, he was dead in the eye of the law. Recently, however, he was himself sued in the Mayor's court for £270, money advanced for the purpose of his defense on the original prosecution. He now would like to know how a dead man can be sued, and the English lawyers are puzzled, too.

SABAL JOHNSON, residing a few miles west of Oakland, Florida, found that an orange tree, twenty years old, in his grove was not doing well. Remedies were applied in vain, and finally the tree died. Being inclined to investigate the matter, he dug down a distance of six or eight feet to see if the growth of the taproot was impeded in any way. Here the discovery was made of a huge stone coffin or box seven and a half or eight feet long, containing the bones of a Seminole Indian and a variety of aboriginal curiosities. The lid of the coffin or box was in two pieces and similar to the limestone now being found in such large quantities near Mascotte.

J. G. Rice, a farmer near Fish Dam, Fla., reports a queer cloud-burst near his place lately. A circular cloud appeared, accompanied by a ferocious windstorm, which tore up trees and destroyed the houses. It suddenly turned and blew in exactly the opposite direction. The same cloud came down suddenly while the ground was dry, the cotton withered, and the sun was so hot that the cotton was literally scalded from bottom to top leaf. The oldest inhabitants say they never knew anything like it, and there are whole acres that apparently look dead, presenting the appearance of frost having fallen upon it. It is really a curiosity.

The Emperor William still keeps up his old habits as to food and drink. On rising he drinks a cup of tea. At 11 he takes breakfast, consisting of bouillon, cold roast, a glass of port or Madeira, or a half bottle of champagne. Dinner, which is served between 4 and 5, consists of soup, an entree, some roast, preserved fruit, and invariably either lobster, of which the Emperor is passionately fond, or oysters. With it he drinks again champagne diluted with Seltzer water, and some light Moselle wine. He never takes beer, and coffee only when there are guests, from consideration for whom he also occasionally indulges in a cigar. His last meal, after 9, consists of a cup of tea and a piece of cake.

Mrs. Mary A. More, aged 69, of Yolo County, Cal., is worth \$500,000, and a widow. Having become weary of her widowhood she determined recently to wed the foreman of her ranch, James Black, a handsome fellow aged 39. The license was procured, but the relatives of Mrs. More, who saw her money about to slip through their fingers, served an injunction restraining her from marrying until her mental condition could be inquired into, and had Black arrested, accusing him of "stealing the body of the woman." The Supreme Court is now wrestling with the case. Mrs. More is a vigorous, gray-haired woman of unusual force of character.

In an interview with a New York reporter James P. Kimball, Director of the United States Mint, said: "The New York Assay Office is the largest and most important in the United States, and more of the precious metals are handled here every year than at all the other offices combined. Last year this office manufactured into bars \$48,321,567.74 of gold out of a total of \$52,259,703.73, and \$6,611,375.22 of silver out of the total of \$7,571,680.76. The affairs of the office are in perfect shape and condition, notwithstanding the great amount of work done here, but we always expect to find its condition satisfactory, and regard it as the model office of the country. Its business is systematized, and is being done by old and tried employees. Changes in the personnel of the office are made as seldom as possible, and never for political reasons. It is the only acid refinery belonging to the Government, and generally large quantities of metal to be refined are sent here from the other offices because the facilities here are so much better." In answer to the question why the mother mint should have been placed in Philadelphia instead of in New York, Mr. Kimball said: "The mint was established in Philadelphia when that city was the seat of Government, and so has since remained there. I know that there is a strong feeling that it should be removed either to this city or Washington, and Philadelphians are constantly fearing that such a step may be taken. The mint is, at present, inadequate for its purpose; but no large appropriation is asked for fear Congress may say, if it requires so great a sum to put it in condition, why would it not be a good idea to build a new mint somewhere else. At present the steam plant is being renewed at the mint. All we could get for the purpose was \$60,000, though we should have had \$100,000, but the authorities feared to ask too large a sum, because it might start the removal agitation that the Philadelphians dread so much."

Causes its victims to be miserable, hopeless, confused, and depressed in mind, very irritable, languid, and drowsy. It is a disease which does not get well of itself. Hood's Sarsaparilla has proven just the required remedy in hundreds of cases.

"I have taken Hood's Sarsaparilla for dyspepsia, from which I have suffered two years. I tried many other medicines, but none proved so satisfactory as Hood's Sarsaparilla." THOMAS COOK, Brush Electric Light Co., New York City.

A Boon

To mankind, said a member of the State Medical Society of Ga., at one of its meetings, "and the prescription ought to be given to the medical fraternity for the benefit of the Profession, for so such combination exists in the Pharmacopeia as that of Simmons Liver Regulator." The late Thos. H. Powers, of Philadelphia, America's greatest chemist, asserted "it was like the discovery of Dover, in his celebrated Dover's Powder, it could not be improved and it was wonderfully strange that the combination had never been made an official form."

L. M. HINTON, M. D., Washington, D. C., says: "No other remedy within my knowledge can fill its place. I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the liver to action and at the same time aid (instead of weakening) the digestive powers."

Symptoms such as bitter or bad taste in the mouth; pain in the back, often mistaken for Rheumatism; sour stomach; loss of appetite; bowels alternately constipated and lax; headache; loss of memory, with a painful sensation of having failed to do something which ought to have been done; debility; low spirits; a thick yellow appearance of the skin and eyes; a dry cough often mistaken for Consumption, indicate Liver disease, and if not regulated in time great suffering, wretchedness and death will often ensue.

Price \$1. Sold by all Druggists. Prepared by J. H. ZIEGLER & Co., Philadelphia, Pa.

SICK HEADACHE. Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all the derangements of the stomach and bowels, are promptly relieved and permanently cured by the use of Dr. Pierce's Pleasant Purgative Pills. In explanation of the remedial power of these Pills over so great a variety of diseases, it may truthfully be said that their action upon the system is universal, not a gland or tissue escaping their salutary influence. Sold by Druggists, 25 cents a vial. Manufactured at the Chemical Laboratory of Dr. J. C. WELLS, N. Y.

\$500 REWARD is offered by the manufacturer, Dr. J. C. Wells, for a case of Chronic Nasal Catarrh which he cannot cure. **SYMPTOMS OF CATARRH.** Dull, heavy headache, obstruction of the nasal passages, discharges falling from the head into the throat, sometimes profuse, watery and acid, at others, thick, tenacious, mucous, purulent, bloody and putrid; the eyes are weak, watery, and inflamed; there is ringing in the ears, deafness, hacking or coughing to clear the throat, expectoration of offensive matter, together with a sense of itching and voice is changed and has a nasal twang; the breath is offensive; smell and taste are impaired; there is a sensation of dizziness, with mental depression, a hacking cough, and general debility. Only a few of the above-named symptoms are likely to be present in any one case. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is so common, more deceptive and dangerous, or less understood by physicians. By its mild, soothing properties, Dr. J. C. Wells' Catarrh Remedy cures the worst cases of Catarrh, "cold in the head," Coryza, and Catarrh of the Headache. Sold by druggists everywhere; 50 cents.

"Untold Agony from Catarrh." Prof. W. HADDER, the famous mesmerist of Hinton, N. Y., writes: "Some ten years ago I suffered untold agony from chronic nasal catarrh. My family physician gave me up as incurable, and said I must die. My case was such a bad one, that every day, towards sunset, my voice would become so hoarse I could hardly speak above a whisper. In the morning my coughing and clearing of my throat would almost strangle me. By the use of Dr. J. C. Wells' Catarrh Remedy, in three months, I was a well man, and the cure has been permanent."

"Thomas Hawking and Spitting." THOMAS J. RUSHING, Esq., 292 Pine Street, St. Louis, Mo., writes: "I was a great sufferer from catarrh for three years. At times I could hardly breathe, and was constantly hawking and spitting, and for the last eight months could not breathe through the nostrils. I thought nothing could be done for me. Luckily, I was advised to try Dr. J. C. Wells' Catarrh Remedy, and I am now a well man. I believe it to be the only and sure remedy for catarrh now manufactured, and one has only to give it a fair trial to experience astounding results and a permanent cure."

Three Bottles Cure Catarrh. ELI ROBBINS, Rungun P. O., Columbia Co., Pa., says: "My daughter had Catarrh when she was five years old, very badly. I saw Dr. J. C. Wells' Catarrh Remedy advertised, and purchased a bottle for her, and soon saw that it helped her; a third bottle effected a permanent cure. She is now eighteen years old and sound and healthy."

NATURAL GAS.

Probable Profits Upon the Stock of the New Company.

To the Editor of THE SENTINEL:

The natural gas meeting at the court house Monday night was an encouraging indication of deep popular interest. But in the brief space of a single evening much had to be left unsaid that would have been of interest to the large audience that was present. The question of the probable income of the proposed company was one, but incidentally referred to. Let me give you readers a calculation on this point.

The recent census of this city showed a population of 35,000 inhabitants. The average family consists of five persons. This gives us 7,000 families. None of these but have one stove, but few that have not two, while the greater number have three or more. Certainly the average family has at least two stoves. That would give us 14,000 stoves. To this number is to be added about 500 more, located in the offices of lawyers, doctors, real estate agents, insurance agents, dentists, dress makers, etc. Then there remains about 2,000 store rooms and saloons, located on such streets as Columbia, Calhoun, Main, Berry, Barr, Clinton, Harrison, Lafayette, Broadway, Wayne, Wells, and other streets. Many of these store rooms are very large, requiring the heating capacity of a half dozen ordinary stoves. Certainly they would require an average of at least two, making 4,000 more. This would give us a grand total of 18,500 stoves. At an average of \$1 per month for natural gas, or \$12 per year, this would yield the proposed company an annual revenue of \$222,000. We have still left all the manufacturing institutions of the city, and the schools, churches and public buildings. The present cost of fuel to these is not less than \$150,000 per annum. Supplied with natural gas this amount could be reduced one-half, which would still leave a sum of \$75,000, which added to the income derived from private consumers would increase the revenues of the company to about \$300,000. As the expense of furnishing the gas after the pipes are laid is merely nominal, the company on an investment of \$600,000 would be making, on this basis of figuring, 50 per cent, annually in the money expended. Apparently, therefore, the charge for gas can be put at a lower figure without too much lessening of the revenues of the organization. It may be said this estimate is made upon a supposition that every family of the city would become a consumer. Experience in other cities indicates that they will. But even if they should not, the loss of their patronage would be more than compensated for by the increased consumption of fuel which would follow its cheapening, and by the patronage of many thousands of new families which would be added to our population by the immense impetus to our growth which natural gas would give.

In almost any event the stock of the company would pay 10 per cent annual dividends and leave an additional 10 per cent, to be added to the surplus, which fund would become a guarantee to every stockholder against any possible failure of supply in the years to come.

Mr. John Haiber, the popular young Ninth ward merchant, and Miss Mary T. Butink, daughter of Mrs. Frank Weismantel, were married yesterday by Rev. Father Ockengruber. A Good Appetite

Is essential to good health; but at this season it is often lost, owing to the poverty or impurity of the blood, derangement of the digestive organs, and the weakening effect of the changing season. Hood's Sarsaparilla is a wonderful medicine for creating an appetite, toning the digestion, and giving strength to the whole system. Now is the time to take it. Be sure to get Hood's Sarsaparilla.

"Do you know how to get the worth of your money?" asked a young man of another. "Certainly, by buying B O's."

Strangely Warned in a Dream.

Since we are on the subject of the supernatural, I will here record the very singular adventure of a lady who is a resident of the interior of Pennsylvania. She was traveling in Europe, and while staying in London she dreamed one night that she was visiting prominent points of interest in that city in regular tourist fashion. But wherever she went she was met by a peculiar-looking man who invariably asked her the same question, "Are you ready?" Go where she would, and do as she liked, in every scene in her dream she met the same man, and he always asked her his ever-recurring question. She was considerably impressed by this dream, and remarked to the lady to whom she related it that she never should forget the face of the man that had so persistently appeared before her. Time went on, she returned to the United States, and went to pay a visit to one of the large cities, stopping at the most noted hotel in the place. She was lodged on one of the upper floors, and went down-stairs to breakfast the morning after her arrival. At the conclusion of her repast she went to the elevator and entered it, with the purpose of returning to her room. She was the only person in the elevator, and the man in charge of it, before starting it, turned to her with the question, "Are you ready?" Struck by these words she looked at the man, and instantly recognized the hero of her singular dream. She was seized at once with a vague and causeless terror, and cried: "Let me out!—you must let me out!" The elevator being already in motion, no release was possible till she reached the first floor. She hurried out of it and closed the door, the man started to descend, and instantly the elevator and its unfortunate guide fell with a crash to the cellar. The poor man was instantly killed, and the strange dream had probably saved the dreamer from a similar fate.—Lucy Hooper's Paris letter.

It is said that the Holly engine, for which the water works trustees propose to pay \$27,500, has been sold to other city for \$20,000. The \$7,500 pays for the excursion incidentals quite handsomely. The council, however, will hardly concur in any such a proposition.

Hon. I. D. G. Nelson has a force of men at work laying an immense foundation for a granite monument he will erect at Lindenwood cemetery on the Nelson family lot. The shaft is constructed at Indianapolis, and is said to be one of the handsomest ever sent out of that city.

Mr. J. W. Pearse and M. W. Simons have dissolved partnership in the dairy and stock business. The experiment was not profitable, and Mr. Pearse will leave the Simons farm this week. He has not his plans for the future in shape, but he may be asked to again assume the superintendency of the street car line.

Ralph Beaumont, the labor orator, did not arrive last night and consequently there was no meeting. A correspondence between the orator and local committee was misunderstood and the plans were discontinued. Mr. Beaumont will be asked to come, however, in the near future but he is not likely to startle anybody if his speeches in this state are correctly reported. He sees nothing but dissolution for the country as now constituted. The old political parties are to him hideous objects of evil and he looks with suspicion on everyone not of his way of thinking. That sort of nonsense will not take with the sensible sort of men, who make up the labor order in this city.

If your carpet looks dingy and you wish to restore its colors to their original freshness, use Ivory Soap and tepid water; apply with a scrubbing brush; use very little water so as not to saturate the carpet. After scrubbing lightly, rub the carpet with a cloth; wet frequently with clear water so as to take up the dirt and soap; wring out the cloth thoroughly before wetting it again.

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'Ivory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

Rev. Dr. D. W. Moffat returned this morning from Minnesota. The distinguished divine is the picture of health and feels greatly the beneficial effects of his northwestern trip. Dr. Moffat will preach at the First Presbyterian church next Sunday.

Mr. W. P. Cooper and his bride are guests of the Tremont House, Chicago. Mr. Cooper changed his plans and was married at St. Luke's Episcopal church, Racine, Wis., by Rev. Charles H. Schultze, the rector. The attendants were John G. Brown and Alice E. Brown, brother and sister of the bride, and cousins of Mr. Cooper, who, with Mrs. Cooper, is expected in the city to-morrow, to be "at home" at the Avenue House.

Mayor Muhler has called a special meeting of the city council for this evening. The purpose of this session is to grant Contractor Wm. Geake a few days additional time to complete the work of laying the stone walk on the west side of Calhoun street. His contract expired to-day, and by Saturday he expects to finish his work. He has been delayed by his inability to get stone here fast enough, and the councilmen look with favor at his request for a few days of grace.

The Panhandle people are still working upon the scheme to bridge the Ohio below Pittsburg, says the Columbus Journal, and thus connect the Pittsburg, Cincinnati & St. Louis and Fort Wayne roads. The latest plan is to build a bridge crossing Brunot's island. At this point the river is about 3,500 feet from bank to bank, there being a channel on each side of the island. The structure will be of iron, and cost something like \$1,500,000. The entire length of the bridge and trestle will be about one mile.

The officers of the Maumee Monumental association have expressed, in a letter to Mayor Muhler, their desire to visit Fort Wayne and review the historic spots. Yesterday Mr. Muhler extended to the gentlemen a hearty invitation and together with Congressman Romies, of Toledo, they will soon be our guests. Mr. Muhler will request Hon. F. P. Randall and Hon. I. D. G. Nelson to point to the visitors our famed landmarks, and will urge that Hon. J. B. White call a meeting of the Business Men's exchange to consult with the Ohio people, who are very friendly to us.

Congratulations.
